About me

I am 26 years old and interested in learning more about IT and data such as programming. I am a social person who likes computers and their languages. I learn easily and I'm not afraid to ask if there is something I am curious about. A couple of hours a week I practice tennis and I am otherwise active with training of various kinds (Sundbyberg tennis club). I got my driving license in 2016. I have played Counterstrike Global Offensive at semi-pro level and speak very good English.
